like were wonders to behold. An ancient and lop-sided ball was brought into evidence.

"Ple-mouth Adams" was fitly selected as umpire, and a youth simply known as "Beeswax" was called to keep score. Then the captains made a collection from their supporters, and each gathered a quarter of a dollar in pennies, which was made the stakes, and handed over to the umpire.

The game that they played was a wonderful invention, and must be taken up among the newest things fin-de-sleele. There was no betting. The ball was laid on the ground and kicked with a rush by the player "at bat."

Then he had to run towards his adversaries about fifty feet and back again before the ball was fishled home or took him in the back of the neck.

The yelling that ensued could only have been touched by eigniteen Arile Lathams or two colored teams in a vacant lot.

The report became widespread that the game was for money and blood, and every citizen in a hurry to get across the park found time to stop awhile and coach and cheer. Presently the mob choked the park.

"Shorty" Welch's aggregation was moving towards almost certain victory when the policeman swooped down. He captured the ball, but the players scattered like rabbits.

"Shorty" clung closs to the umpire, and when he got into the alley on Frankfort street he gave him a licking and swiped the stakes. Both teams are looking for "Shorty," and swear that they will lynch him when he shows up.

"Evening World" readers will remember how admirably Mr. Croker then succeeded in refuting his brother-in-laws charges and insinuations and added fresh laurels to his own crown and stiffened up the weakening joints of Tammany Hail.

But things have changed since the Passett Committee died. The Park-hurst crusade has stirred New York as it was never stirred before, and shaken the Police Department, the keystone of Tammany's power, like a slight earthquake preceding the terrific upheaval caused by the Lexow Committee during the last week.

The investigations of Senator Lexow and his colleagues, aided by the relentless probe of Lawyer John W. Goff, have shown beyond reasonably doubt that Tammany's power has depended largely upon the Police Department, and that the latter's methods are rotten to tile core han one prominent Tammany man has been even directly implicated in this corruption, and this may have made Mr. Croker hesitate about remaining where he, the man who knows better than any one else wherein Tammany's power lies, could be summoned before the industrious investigators.
